

**Remarks**

Replacement paragraphs 0002;0003; 0004;0005; 0006; 0010;0010-1;0027;0028;0029;0030;0031;0032;0033;0034;0035; 0036;0037;and 0038 are being presented with this amendment. The changes in the paragraphs are being made to correct spelling and provide a clearer statement of the inventions without the addition of any new matter.

A new abstract in accordance with current practice is being presented.

Claims 1-14 have been amended to overcome the rejections under 35 USC 112 and in particular providing antecedent basis for the terms in the claims. The specific invention has now been defined as an armrest and back member since they are integral to the invention.

The first guide as recited in claim 2 is guide pin 54 that passes through opening 55 in the first lever to help maintain the desired alignment of the teeth 56 with respect to the teeth 40 while the second guide as recited in claims 5 relates to the guide 66 that engages the second lever 58 to help in maintaining the ball 70 in alignment with the second side wall 22. The current amendment makes these recitations clear.

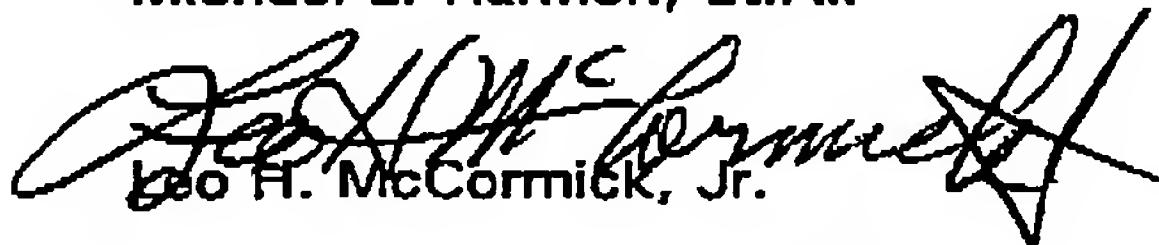

Claim 4 have been amended by deleting the multiple recitation of the same structure.

The remaining claims have been amended in a manner as suggested in the office action and as a result all of the claims now present define the invention in a clear manner for one of ordinary skill in the art to understand and appreciate.

This amendment places this application in condition for allowance.

Respectively Submitted

Michael L. Harmon, Et.Al.

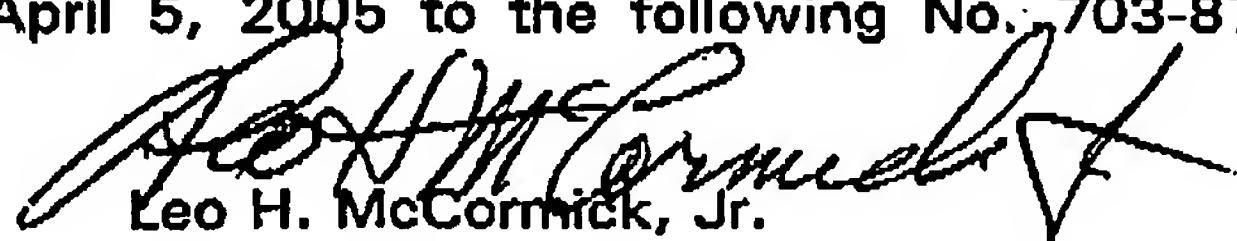

Leo H. McCormick, Jr.

Attorney, Reg. No. 25,897

**CERTIFICATE OF MAILING**

I hereby certify that this correspondence is being sent by fax to the United States Patent Office on April 5, 2005 to the following No. 703-872-9306.
